At the onset of the Covid 19 outbreak, I received information about something called Operation Lockstep. I was told by one deep-cover-insider that this plot was developed approximately two years prior to the outbreak of Covid 19. This plot against humanity also goes by other aliases. The policies and proceedures, summarized below, are in the process of being codified into law by Congress or placed into formal existence through Executive Order.

After receiving this information, for a second time, last May, from an officer based at the Pentagon, I decided to take this seriously. In the past 14 months, I have watched the unveiling of this plot and have witnessed a progressive step-by-step manner.

In the past week, I have received four notifications of this plot from private sources. The lid is coming off the cover-up. However, the plot is near completion and is only experiencing minor pushback in America and around the world.

The original documents are heavily laden with copyright warnings. Therefore, for the purposes of this article, I decided to play it safe and paraphrase the components of this plot.

Operation Lockstep

There are three phases associated with the subjugation of humanity through the use of globally applied medical-martial-law.

Phase 1: The common cold/flu, or ailments with minor symptomology is used to lockdown a nation. A flawed testing system will be utilized to greatly embellish the threat. Mass media will be used in order to play on the fears of the public in order to gain compliance.

In the case of Covid case numbers there will be a variety of means to inflate the Covid count and these include the following steps:

1. Double-counting
2. Classifying as many deaths as possible as possible as Covid. Covid will often be accompanied by co-morbidity and this makes manipulating the case numbers much more attainable.
3. Changing death certificates.
4. Pay local health entities for all Covid diagnosis and remit federal payment at a much higher rate for reporting Covid deaths.
5. Use non-validated testing to increase the false positive Covid case numbers.
6. The death curve must be greatly exaggerated. The use of contraindicated medical practices can be brought to bear for this purpose. The approach must be institutuinalized in nature (e.g., critical care units, nursing homes, etc.)

Public compliance will be obtained through a partnership with social media companies which will act as defacto agents of the government who will subsequently enforce strict censorship policies designed to completely control the narrative.

Public resistance will be disallowed. Lockdowns will be implemented and public protesting will be strictly prohibited.

Phase 2: The culmination of the first phase will lead to the enhancement of failed immune systems through a lack of food, wearing masks which will compromise immune system functioning. Specific exposure to Vitamin D must be limited and this includes through the discouragement of the use of supplements and habitual exposure to sunlight. Introduction of artificial foods must be introduced in order to further compromise immune systems. Food shortages must be engineered to ensure the control of the population's diet.
